Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The previous rejections are withdrawn pursuant to Applicant's Amendment and REMARKS.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Collins-Rector et al., US 6,188,398.

Collins-Rector discloses a display comprising a segment of video content, e.g. 31, a still image, e.g. 33, and a separate and third portion, e.g. 37, of the display.

Kaman discloses a video 2 and separate images, e.g. 4a-d, that are hyperlinked to an e-commerce web site.

To have provided the still image, e.g. 33, hyperlinked to an e-commerce web site and providing the third portion, e.g. 37, to have provided specific information about a product. Collins-Rector notes that "any other desired information content can be placed in a fourth frame 37." It is the Examiner's position that to have correlated the information contained from image 33 with a hyper-linked web site 33, of Collins-Rector, as modified by Kaman, would have been obvious to one of ordinary skill in the art.

The motivation for having done such would have been to enter targeted information that would have been related to information contained in a hyper-linked web site.

4. Applicant's DECLARATION from Jeff Haber has been reviewed. Two issues are noted. First, the DECLARATION does not overcome the Collins-Rector filing date. No evidence is presented that the reduction to practice in May of 1999 correlates to the present claim language. Second, no information has been presented whether public dissemination of the invention referenced occurred prior to the filing date of Applicant's present application.

5. Further pertinent references of interest are noted on the attached PTO-892.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
